PRODUCT DISCONTINUANCE NOTIFICATION (PDN)

PDN Number: **04-0601**

Issue Date: **June 30, 2004**

Product(s) Affected: **Please see the enclosed Notice Letter
Please see the enclosed Product List**

Alternative Supply Sources: **Please visit Pericom's website:**
<http://www.pericom.com/quality/pcn.php>

Last Purchase Date *: **December 15, 2004**

Last Shipment Date *: **March 15, 2005**

Reason for Discontinuing Listed Products:

- ☒ Obsolete Design/Process Technology
☒ Obsolete Package/Assembly Technology
☒ No current or rapidly declining sales
☐ Other:

See Product List Attachment: ☒ Yes; ☐ No

Customer Comments:

June 30, 2004

Dear Valued Pericom Customer,

For more than a decade, Pericom has supported the marketplace with a broad portfolio of interface solutions to support the needs of our customers. Over this same period, we have tried to avoid discontinuing products, even devices with insignificant run rates, as we understand this can cause issues for your organization.

This reluctance on our part to obsolete products has resulted in Pericom's accumulation of a great number of valid older part numbers. Last year, Chartered Semiconductor decided to close their Fab 1 facility where we had many of our products built. With this announcement, we started transferring products to Fab 2 at Chartered Semiconductor as well as other fabs including TSMC, Hynix, and more recently CSMC in China. We also started to build strategic inventories to support the conversion periods and last time buy requirements.

For the devices that we are transferring, we are issuing a PCN as we normally do to provide our customers insight into these changes and allow you to plan for the new product.

Unfortunately the cost and required engineering resources to transfer certain current products is not justified as usage is now very small or a path is just not available based on the type of technology. These particular devices are being targeted for obsolescence. Although this targeted group of products includes hundreds of part numbers (especially in older commodity logic devices), we anticipate it will impact only a small percentage of customers as the revenue associated with all of them combined is a small portion of our total revenue in recent quarters.

Although we understand that this may cause some inconvenience with some customers, we sincerely believe this will make Pericom more efficient, competitive, and better able to service your requirements.

Please find attached a list of Pericom products that we are intending to discontinue. We will offer last-time buys which allow orders to be placed through December 15th, 2004 and shipments to be scheduled through March 15th, 2005. In some cases we have a restricted supply of product to get us through the transfer and the last time buy periods. In these cases, we will do our best to manage the product to avoid issues with customers that require our product. We encourage you to provide us as much visibility and place orders as soon as possible to help us in this effort.

Thank you in advance for your support and understanding with this important matter.
